

# Compression Springs

ASRaymond offers a broad range of pre-engineered coiled SPEC® Compression Springs available in a variety of sizes and spring rates. They are often an engineer's first choice because they are reliable, inexpensive, and easy to use. With one of the largest selections of Compression Springs, ASRaymond provides more options to meet the needs of a unique application.

## EXPANDED LINE

The expanded line of compression springs capitalises on ASRaymond's more than 135 years of spring design expertise and offers more than 33,000 spring configurations to choose from.

More options means less time and hassle waiting for a custom part to be designed, made, and shipped. Our experienced engineers did the work, so you do not have to. Compression Springs are available in music wire, 316, and 302 stainless steel.

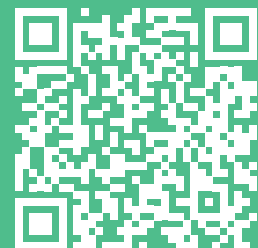

**Free Length**  
2.00 – 585.01 mm  
0.079 – 23.03 in

**Wire Diameter**  
Ø0.1524 – Ø6.35 mm  
Ø0.006 – Ø0.25 in

**Outside Diameter**  
Ø1.19 – Ø71.63 mm
